VARIANTS

Each variant may be used independently. Players should agree before starting the game if they want to use one or more of the variants. All other rules still apply.

OPEN GATES

If all the cities are full (i.e. There are no empty slots in all cities), the player can still perform the Marriage action (paying 4 Florins as dowry) and the Diplomatic Mission action (placing a meeple of rank 4) with the following changes:

- 1) The meeple goes back to the player's general stock.
- 2) The player scores the VP as normal for the Career slot or the paid dowry, but **does not** take the Alliance tile.

A SHORTER SEASON

The game lasts 6 rounds, instead of 7.

During the Initial Preparation, do not place a reward tile on the leftmost slot.

There are now 6 tiles in the reward area; one for each round of the game, going from left to right.

PRIVATE MESSAGES

When a player performs an "Assignment Action", flip the chosen Assignment tile face down.

This means that each Assignment tile may only be used once per round.
